PART III - Procedure for Maintaining in the County Associations
Section a Record of the Disposition of All Receipt
Forms CI-2 Furnished to Each County Association
Treasurer

Upon receipt of a supply of pads of Form CL-2, Receipt for Commodity Loan Fees, the County Associations Section should determine the distribution of this form in accordance with the probable needs of each county for commodity loans on wheat and corn and should forward the required number of pads to the association treasurer.

The purpose of serial numbers on Form CL-2 is to enable the County Associations Section to keep a record of the numbers of receipts issued to the association treasurer and to make certain that all receipts are accounted for. This will facilitate checking of association records to assure the reporting of loan fees regularly and completely as collections on Form ACP-8, revised.

The County Associations Section should maintain a memorandum record of the serial numbers of all Receipt Forms CL-2 issued to each association treasurer. Receipt numbers listed on NCR-County No. 9 should be checked monthly with the list of numbers of Receipt Forms CL-2 issued to each association treasurer. If the numbers of Forms CL-2 listed on NCR-County No. 9 are not consecutive and some numbers are not accounted for, although later serial numbers are listed, a letter should be sent to the association treasurer requiring him to account for the missing numbers. An effective method of accounting for all receipt forms is to instruct the association treasurer to transmit to the County Associations Section with Form NCR-County No. 9 the originals of all Forms CL-2 that are spoiled in preparation so they cannot be handed out to farmers paying loan fees. Such spoiled receipts should be clearly marked "Void", and should be dated and initialed by the association treasurer. Carbon copies of spoiled receipts should be retained in the pad with other carbon copies of CL-2, clearly marked "Void" and dated and initialed by the association treasurer.
